

April 8, 2018

Dear Friends & Supporters:

Welcome to our 2018 We Believe Fundraising Gala.

In my role over the last year as President of The Olive Branch of Hope (TOBOH), I have been privileged to share in the journeys of many who have been afflicted with breast cancer. As a result, I have experienced a greater level of passion for the vision which our Founders were courageous enough to forge ahead with.

I am honoured to lead a team of devoted and equally impassioned individuals on our Board at this point of our history where hope is now elevated, bringing us closer to a reality where cancer will no longer have dominance in our society. This is due in no small part to dedicated researchers worldwide who share that vision, a few of whom we are more than fortunate to partner with, and who work tirelessly, sacrificing much to realize the hope of many.

We are proud of our accomplishments over the past year. The Caribbean Breast Cancer Assistance Program (CBCAP) is one such development that was launched in December 2017. Our Founder & Executive Director, Ms. Leila Springer, went to Barbados with funds contributed by our loyal supporters to present the Barbados Breast Screening Project with vouchers, thereby affording 115 less-privileged women the cost of a mammogram. This is evidence of your dollars at work. Encouraged by this success, we are taking the CBCAP to Jamaica in a few weeks to provide vouchers for the women, particularly in the rural areas, to get mammograms done that will save many lives.

We are reminded of Jabez' prayer for God to bless him and enlarge his territory. We feel that God has answered our 'Jabez' prayer as these projects are unfolding and our help is coming. We will continue to work diligently in our resolve to strengthen the programs we currently have, while exploring new pathways to be a relevant source of support to the women we serve.

Sincerely,

A handwritten signature in black ink, which appears to read "Andrea Moncrieffe". The signature is fluid and cursive.
